## **KSS Receives Innovation Award from Shanghai GM Safety Restraints Company Recognized for Technology Leadership**

**SHANGHAI CHINA, June 11, 2010** – Key Safety Systems (KSS), a leading global supplier of advanced engineered safety products, including inflators, airbags, steering wheels, and seatbelts for automotive and non-automotive markets, announced today that Yanfeng Key (YFKSS) was awarded the prestigious Shanghai GM (SGM) Development and Innovation Award at the automaker’s 12<sup>th</sup> Annual Supplier Meeting held in Shanghai. YFKSS is a joint venture company focused on engineering and manufacturing of world class safety restraints products and systems. The honor recognizes excellence in engineering, innovation and technical development, and YFKSS was the only safety restraints supplier to receive the award.

“This recognition in the area of technology is extremely gratifying for YFKSS,” said Richard Chen, General Manager of YFKSS. “We made significant strategic investments early on in China to ensure that we would have a technology leadership position in the market. For example, we were the first safety supplier to have a Hyge Crash Sled in China, and now we continue to invest heavily as we further expand and also perform global engineering programs. We are pleased to receive this honor from SGM and for the opportunity to serve SGM now and in the future.”

### **About KSS**

Key Safety Systems (KSS) is a global leader in the design, development and manufacturing of automotive safety-critical components and systems including inflators, airbags, steering wheels, and seatbelts. Its products are featured in more than 300 vehicle models produced by over 60 well-diversified customers worldwide. KSS is headquartered in Sterling Heights, Michigan, with a global network of 35 sales, engineering, and manufacturing facilities generating approximately \$1 billion in sales. The company has four main technical centers located in the U.S., Germany, China, and Japan.

### **About YFKSS**

Yanfeng Key is a joint venture between equity partners Yanfeng Visteon and KSS. Headquartered in the Kangqiao Industrial Zone in Shanghai, YFKSS offers a world class technical center that provides in-house engineering services for OEMs around the globe. The technical center is one of three major R&D hubs for KSS globally, and covers the Asia-Pacific region. YFKSS is committed to being the best automotive safety restraints system integrator and component supplier in China by providing customers with high quality, advanced technology at the lowest cost.
